### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

*In the specification:*

Previously amended first paragraph, line 2, before "which" insert --now U.S. Patent No. 6,691,385 issued February 17, 2004,--; and

Previously amended first paragraph, line 3, before "which" insert --now abandoned,--.

2. The following is an examiner's statement of reasons for allowance: Regarding claim 11, and accurately argued by the applicant, although Roberts (US#6543103) discloses the casket structure required in the method of memorializing, it would not have been obvious to one of ordinary skill in the art to modify Roberts to utilize the claimed method of memorializing the deceased who is to be buried in the casket. Regarding claim 18, and as accurately argued by the applicant, Roberts fails to disclose affixing a different casket corner piece to each of the casket corner piece displays. Moreover, while Roberts does teach each casket corner piece display displays a respective casket corner piece, the pieces are identical, or at least two are identical. It would not have been obvious to one of ordinary skill in the art to modify Roberts such that a different casket corner piece was affixed to each of the casket corner piece displays.
